

S. No.	Course Code	Course Name	Course Type	Cd	L	T	P	Marks		
								Sessional	Final Exam	Total
12	EE-705	Seminar	PEC	2	0	0	4	-	100	100

**Course Outcomes:**

At the end of the course the student will be able to	
CO1	Identify a relevant topic for the seminar from an emerging domain from the branch of study.
CO2	Conduct deep literature review from diverse sources including journals, whitepapers, credible web sources, industry reports, patent databases, books etc.
CO3	Put together material from diverse sources in the form of an engaging presentation with new insights.
CO4	Prepare a short whitepaper on the seminar topic providing a broad overview of the domain.
CO5	Make a high-quality presentation on the seminar topic and demonstrate competence in addressing queries from experts and the audience.

**Guidelines and evaluation of Seminar:**

Students shall individually prepare and submit a seminar report on a topic of current relevance related to the field of Electrical Engineering. The reference shall include standard journals, conference proceedings, reputed magazines and textbooks, technical reports and URLs. Each student shall be evaluated by a team of at least three faculty members constituted by the Head of the Department based on presentation, technical content, adequacy of references, depth of knowledge and overall quality of the seminar report.

**Distribution of Marks:**

S. No	Evaluation Component	Marks
1	Seminar Report	40
2	Presentation	40
3	Attendance	20
<b>Total Marks</b>		<b>100</b>
