<b>Lesson Plan No. 2.3</b>	<b>Course Name: Financial Management Topic: Concept and nature of Capital Budgeting</b>	<b>Course No.: BCMMJ-301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Define capital budgeting and its primary purpose in financial management.</li> <li>b. Explain the importance of capital budgeting in making long-term investment decisions.</li> <li>c. Use capital budgeting techniques to assess the feasibility of a business expansion plan.</li> </ul>	
<b>Teaching Aids (if any)</b>	a. Use of ICT	
<b>Teaching Development</b>	<p>1. <b>Introduction</b>(10minutes) Ask questions What is Budgeting? What is capital budgeting? What is the importance of capital budgeting? What are different techniques of capital budgeting?</p> <p><b>Development</b>(30minutes) Introduction</p> <ul style="list-style-type: none"> <li>- Concept of capital budgeting.</li> <li>- Highlight the important characteristics and its relevance.</li> <li>- Different techniques of capital budgeting</li> <li>- Importance of capital budgeting in long-term decisions</li> <li>- Implications of capital budgeting decisions</li> <li>- Advantages and disadvantages of capital budgeting decision</li> <li>- Effectiveness of capital budgeting decision</li> <li>- Comprehensive capital budgeting plan</li> </ul> <p>3.Exercise(5minutes)– Discussion</p>	
<b>Closure</b>	<p>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</p> <p>2. Homework Explain in detail the characteristics and significance of capital budgeting.</p> <p>3. Suggested Reading Book 1, Ch.8</p> <p>Spend 5 minutes to wrap up and consolidate the learnings</p>	
<b>Evaluation</b>	<p>1. Reflective Questions (What, Why, Who?). Allow students to answer and discuss.</p> <p>2. Numerical</p> <p>Spend 5 minutes to evaluate student assimilation of the lesson contents</p>	

<b>Lesson Plan No. 2.4</b>	<b>Course Name: Financial Management Topic: Techniques of Capital Budgeting</b>	<b>Course No.: BCMMJ- 301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ol style="list-style-type: none"> <li>a. Define the main techniques used in capital budgeting, such as Net Present Value (NPV), Internal Rate of Return (IRR), Payback Period, and Profitability Index (PI).</li> <li>b. Describe the differences between the various capital budgeting techniques and when each is most appropriately used.</li> <li>c. To calculate NPV, IRR, Payback Period, and PI for a given investment project.</li> </ol>	
<b>Teaching Aids (if any)</b>	<ol style="list-style-type: none"> <li>a. Use of ICT</li> </ol>	
<b>Teaching Development</b>	<ol style="list-style-type: none"> <li>1. <b>Introduction</b>(10minutes)               <ul style="list-style-type: none"> <li>- Ask questions</li> <li>- What are different techniques of Capital Budgeting?</li> <li>- What is the difference between discounting and non-discounting techniques of capital budgeting?</li> <li>- Discuss about different features Capital Budgeting in a business firm</li> </ul> </li> <li>2. <b>Development</b>(30minutes)               <ol style="list-style-type: none"> <li>a) Introduction                   <ul style="list-style-type: none"> <li>- Define Capital Budgeting</li> <li>- Highlight the important characteristics and its relevance</li> <li>- Purpose of Capital Budgeting in business.</li> <li>- Importance of Capital Budgeting in evaluating investment decisions.</li> <li>- Evaluate the strengths and weaknesses of each capital budgeting technique</li> <li>- Concept of pay back and Accounting Rate of Return</li> </ul> </li> </ol> </li> <li>3. <b>Exercise</b>(5minutes)– Discussion</li> </ol>	
<b>Closure</b>	<ol style="list-style-type: none"> <li>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</li> <li>2. Homework               <ul style="list-style-type: none"> <li>-To go through the concept of Capital Budgeting</li> </ul> </li> <li>3. Suggested Readings: Book 1, Ch.8</li> </ol> Spend 5 minutes to wrap up and consolidate the learnings	
<b>Evaluation</b>	<ol style="list-style-type: none"> <li>1. Reflective Questions (What, Why, Who?). Allow students to answer and discuss.</li> </ol> Spend 5 minutes to evaluate student assimilation of the lesson contents	

<b>Lesson Plan No.</b> 2.5	<b>Course Name: Financial Management</b> <b>Topic: Traditional and Discounted Cash flow (DCF) methods</b>	<b>Course No.:</b> <b>BCMMJ-301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Describe the key differences between traditional and discounted cash flow methods in evaluating investment projects.</li> <li>b. Define traditional methods (e.g., Payback Period, Accounting Rate of Return) and discounted cash flow methods (e.g., Net Present Value, Internal Rate of Return) in capital budgeting.</li> <li>c. Use both traditional and DCF methods to evaluate a potential business investment and make a recommendation.</li> </ul>	
<b>Teaching Aids (if any)</b>	<ul style="list-style-type: none"> <li>a. Power point presentation</li> <li>b. Chalk and talk</li> <li>c. Quiz</li> <li>d. One minute paper</li> </ul>	
<b>Teaching Development</b>	<ol style="list-style-type: none"> <li>1. Introduction(10minutes) <ul style="list-style-type: none"> <li>-What is the difference differences between traditional and discounted cash flow methods</li> <li>-What are the techniques of Capital Budgeting?</li> <li>-What are its applications?</li> <li>- What are the traditional methods of capital budgeting?</li> </ul> </li> <li>2. Development(30minutes) <ol style="list-style-type: none"> <li>a. Introduction <ul style="list-style-type: none"> <li>-Non-discounting techniques of Capital Budgeting</li> <li>- Discounting techniques of Capital Budgeting</li> <li>- Evaluate a potential business investment</li> <li>- Analyze the advantages and disadvantages</li> <li>- Evaluate the reliability and effectiveness of traditional methods</li> <li>- Evaluate the reliability and effectiveness of DCF method</li> </ul> </li> <li>a. Numerical Problems to be solved in the</li> </ol> <p>Eercise (5 minutes) Discussion</p> </li> </ol>	
<b>Closure</b>	<ol style="list-style-type: none"> <li>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</li> <li>2. Homework <ul style="list-style-type: none"> <li>- Differentiate between the discounting and non-discounting techniques of capital budgeting</li> </ul> </li> <li>3. Suggested Readings: Book 1, Ch.8</li> </ol> <p>Spend 5 minutes to wrap up and consolidate the learnings</p>	
<b>Evaluation</b>	<ol style="list-style-type: none"> <li>1. Reflective Questions (What, Why, Who?). Allow students to answer and discuss.</li> <li>2. Spend5minutestoevaluatestudentassimilationofthelesson contents</li> </ol>	

<b>Lesson Plan No. 2.6</b>	<b>Course Name: Financial Management Title: Payback Period</b>	<b>Course No.: BCMMJ-301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Define the payback period in the context of capital budgeting.</li> <li>b. Explain the significance of the payback period as a measure of investment risk and liquidity.</li> <li>c. Use the payback period method to assess the feasibility of a proposed project.</li> </ul>	
<b>Teaching Aids (if any)</b>	a. Use of ICT	
<b>Teaching Development</b>	1. Introduction(10minutes) <ul style="list-style-type: none"> <li>-Ask questions</li> <li>- What are the non-discounted techniques of Capital Budgeting?</li> <li>- What are its applications?</li> <li>- What are its advantages and disadvantages?</li> <li>- What is feasibility of the project?</li> </ul> 2. Development(30minutes) <ul style="list-style-type: none"> <li>a) Introduction <ul style="list-style-type: none"> <li>- Pay-back period technique of Capital Budgeting</li> <li>- Significance of the payback period as a measure of investment risk and liquidity</li> <li>- Advantages and limitations of using the payback period as a capital budgeting tool</li> <li>- Effectiveness of the payback period in making investment decisions under different business conditions</li> </ul> </li> <li>b) Numerical Problems to be solved in the class Exercise (5 minutes) – <ul style="list-style-type: none"> <li>-Discussion</li> <li>-Numerical.</li> </ul> </li> </ul>	
<b>Closure</b>	1. Summarize the Lesson Learning Outcomes and get affirmation from students on these. 2. Homework <ul style="list-style-type: none"> <li>- Explain the advantages and disadvantages of pay-back period method with suitable examples</li> </ul> 3. Suggested Readings: Book 1, Ch. 8 Spend 5 minutes to wrap up and consolidate the learnings	
<b>Evaluation</b>	1. Reflective Questions (What, Why, Who?). Allow students to answer and discuss. 2. Spend 5 minutes to evaluate student assimilation of the lesson contents	

<b>Lesson Plan No. 2.7</b>	<b>Course Name: Financial Management Title: Accounting Rate of return</b>	<b>Course No.: BCMMJ-301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Define the Accounting Rate of Return (ARR) and its components</li> <li>b. Explain how the ARR is used to measure the profitability of an investment</li> <li>c. Use ARR to evaluate and compare the profitability of multiple investment options.</li> </ul>	
<b>Teaching Aids (if any)</b>	a. Use of ICT	
<b>Teaching Development</b>	<p>1. Introduction(10minutes)</p> <ul style="list-style-type: none"> <li>-Ask questions</li> <li>- What is Accounting Rate of Return?</li> <li>- How the ARR is used to measure the profitability of an investment?</li> <li>- How compare the profitability of multiple investment options.</li> </ul> <p>2. Development(30minutes)</p> <p>a) Introduction</p> <ul style="list-style-type: none"> <li>- Define the ARR</li> <li>- Explain how the ARR is used to measure the profitability of an Investment</li> <li>- Use ARR to evaluate and compare the profitability of multiple investment options</li> <li>- Analyze the advantages and limitations of using ARR as a financial metric for investment decisions</li> <li>- Evaluate the effectiveness of ARR in assessing the performance and profitability of various investment projects</li> <li>- Strategies to improve the ARR of a project through enhancements in revenue or cost management</li> </ul> <p>b) Numerical Problems to be solved in the class Exercise (5 minutes) Discussion</p>	
<b>Closure</b>	<p>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</p> <p>2. Homework</p> <ul style="list-style-type: none"> <li>-Explain how the ARR is used to measure the profitability of an investment</li> </ul> <p>3. Suggested Readings: Book 1, Ch. 8 Spend 5 minutes to wrap up and consolidate the learnings</p>	
<b>Evaluation</b>	<p>1. Reflective Questions (What, Why, Who?). Allow students to answer and discuss.</p> <p>2. Spend 5 minutes to evaluate student assimilation of the lesson contents</p>	

<b>Lesson Plan No. 2.8</b>	<b>Course Name: Financial Management Time: Net Present Value</b>	<b>Course No.: BCMMJ- 301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ol style="list-style-type: none"> <li>a. Define Net Present Value (NPV) and its purpose in capital budgeting.</li> <li>b. Explain how NPV is used to assess the profitability of an investment project.</li> <li>c. Use NPV to evaluate and make recommendations for a proposed investment project.</li> </ol>	
<b>Teaching Aids (if any)</b>	<ol style="list-style-type: none"> <li>a. Power point presentation</li> <li>b. Use of whiteboard</li> <li>c. Quiz</li> <li>d. One Minute paper</li> </ol>	
<b>Teaching Development</b>	<ol style="list-style-type: none"> <li>1. <b>Introduction</b>(10minutes)               <ul style="list-style-type: none"> <li>- Ask questions</li> <li>- What is Net Present Value?</li> <li>- How NPV is used to assess the profitability of an investment project?</li> <li>- How to use NPV to evaluate and make recommendations for a proposed investment project</li> <li>- How to assess the implications of a positive or negative NPV for investment decisions and company strategy.</li> <li>- How to design a comprehensive financial analysis model that incorporates NPV</li> </ul> </li> <li>2. <b>Development</b>(30minutes)               <ol style="list-style-type: none"> <li>a) Introduction                   <ul style="list-style-type: none"> <li>- Concept of NPV</li> <li>- Explain the discounting technique</li> </ul> </li> <li>b)Discounting technique                   <ul style="list-style-type: none"> <li>-NPV</li> <li>-IRR</li> </ul> </li> </ol> </li> <li>3.Exercise (5minutes) – Numerical problems to be solved in the class</li> </ol>	
<b>Closure</b>	<ol style="list-style-type: none"> <li>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</li> <li>2. Homework               <ul style="list-style-type: none"> <li>- To go through the numerical based on Capital Budgeting</li> </ul> </li> <li>3. Suggested Readings Book 1, Ch. 8 Spend5minutes to wrap up and consolidate the learnings</li> </ol>	
<b>Evaluation</b>	<ol style="list-style-type: none"> <li>1. Reflective Questions (What,Why,Who?). Allow students to answer and discuss. Spend5 minutes to evaluate student assimilation of the lesson contents</li> </ol>	

<b>Lesson Plan No. 2.9</b>	<b>Course Name: Financial Management Title: Internal Rate of Return, Profitability Index</b>	<b>Course No.: BCMMJ- 301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Define Internal Rate of Return (IRR) and its role in capital budgeting.</li> <li>b. Explain the concept of IRR and how it is used to evaluate the profitability of investment projects.</li> <li>c. Use IRR to assess and compare the attractiveness of different investment projects.</li> </ul>	
<b>Teaching Aids (if any)</b>	a. Use of ICT	
<b>Teaching Development</b>	<ol style="list-style-type: none"> <li>1. <b>Introduction</b>(10minutes) <ul style="list-style-type: none"> <li>- Ask questions</li> <li>- Numericalstobe solved</li> <li>-</li> </ul> </li> <li>2. <b>Development</b>(30minutes) <ol style="list-style-type: none"> <li>a) Introduction <ul style="list-style-type: none"> <li>- Differentnumerical problems</li> </ul> </li> <li>b) Technique <ul style="list-style-type: none"> <li>- NPV</li> <li>- IRR</li> <li>- ARR</li> </ul> </li> <li>c. Payback</li> <li>d. Analyze the implications of an IRR that is higher or lower than the company's required rate of return.</li> <li>e. Evaluate the effectiveness of IRR as a decision-making tool in capital budgeting, considering its strengths and limitations.</li> <li>f. Define the Profitability Index (PI) and its purpose in capital budgeting.</li> <li>g. Explain how the Profitability Index is used to measure the relative profitability of an investment project.</li> <li>h. Use PI to evaluate and prioritize investment opportunities in a portfolio.</li> <li>i. Analyze the advantages and limitations of using PI. <ul style="list-style-type: none"> <li>- Evaluate the effectiveness of the Profitability Index as a tool for investment decision-making and its role in capital budgeting.</li> </ul> </li> </ol> </li> <li>3. <b>Exercise</b> (5minutes) – Numerical problems to be solved in the class</li> </ol>	

<p><b>Closure</b></p>	<ol style="list-style-type: none"> <li>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</li> <li>2. Homework             <ul style="list-style-type: none"> <li>- To go through the techniques of Capital Budgeting</li> </ul> </li> <li>3. Suggested Readings:             <ul style="list-style-type: none"> <li>Book 1, Ch. 8</li> </ul> </li> </ol> <p>Spend 5 minutes to wrap up and consolidate the learnings</p>
<p><b>Evaluation</b></p>	<ol style="list-style-type: none"> <li>1. Reflective Questions (What, Why, Who?). Allow students to answer and discuss.</li> </ol> <p>Spend 5 minutes to evaluate student assimilation of the lesson contents</p>

<b>Lesson Plan No. 2.10</b>	<b>Course Name: Financial Management Title: Risk- Return Trade Off.</b>	<b>Course No.: BCMMJ- 301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Define the risk-return trade-off and its importance in investment decisions</li> <li>b. Explain the concept of risk-return trade-off and how it affects investment choices.</li> </ul>	
<b>Teaching Aids (if any)</b>	a. ICT	
<b>Teaching Development</b>	<ol style="list-style-type: none"> <li>1. <b>Introduction</b>(10minutes) <ul style="list-style-type: none"> <li>- Ask questions</li> <li>- What is cost of capital?</li> <li>- What is its scope?</li> <li>- Introduce the concept of cost of debt and Preference capital</li> <li>- Enumerate Numerical based on debt and preference capital</li> </ul> </li> <li>2. <b>Development</b>(30minutes) <ol style="list-style-type: none"> <li>a) Introduction <ul style="list-style-type: none"> <li>- Define cost of capital</li> <li>- Highlight the important characteristics and its relevance</li> </ul> </li> <li>b) Importance of cost of Preference capital</li> <li>c) Calculations based on cost of debt and preference capital.</li> <li>d) Use the risk-return trade-off to make investment decisions that align with a specified risk tolerance and return objective.</li> <li>e) Compare the risk-return trade-offs of various investment strategies and portfolios to determine which aligns best with an investor's goals.</li> <li>f) Evaluate the effectiveness of different risk management techniques in balancing risk and return within an investment portfolio.</li> </ol> </li> </ol> <p>Exercise(5minutes)– Discussion</p>	
<b>Closure</b>	<ol style="list-style-type: none"> <li>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</li> <li>2. Homework <ul style="list-style-type: none"> <li>- To go through the concept of cost of debt and Preference capital</li> </ul> </li> </ol> <p>Suggested Readings: Book 1, Ch. 4 Spend 5 minutes to wrap up and consolidate the learnings</p>	
<b>Evaluation</b>	<ol style="list-style-type: none"> <li>1. Reflective Questions (What,Why,Who?). Allow students to answer and discuss.</li> </ol> <p>Spend5 minutes to evaluate student assimilation of the lesson contents</p>	

<b>Lesson Plan No. 3.1</b>	<b>Course Name: Financial Management</b> <b>Title: Concept and Factors Influencing Capital Structure Decisions</b>	<b>Course No.: BCMMJ- 301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Define capital structure and its components (equity and debt).</li> <li>b. Explain the concept of capital structure and how it affects a company's financial stability and performance</li> <li>c. Analyze a company's capital structure by calculating ratios such as debt-to-equity ratio and leverage ratios.</li> </ul>	
<b>Teaching Aids (if any)</b>	a. ICT	
<b>Teaching Development</b>	<ol style="list-style-type: none"> <li>1. <b>Introduction</b>(10minutes) <ul style="list-style-type: none"> <li>- Ask questions</li> <li>- What is Capital structure?</li> <li>- What is its scope?</li> <li>- Introduce the concept of capital structure</li> <li>- Talk about the concept of financial structure.</li> </ul> </li> <li>2. <b>Development</b>(30minutes) <ol style="list-style-type: none"> <li>a) Introduction <ul style="list-style-type: none"> <li>- Define Capital structure and financial structure.</li> <li>- Highlight its relevance in business scenario.</li> <li>- Analyze the impact of different capital structure choices on a company's cost of capital and overall financial risk.</li> <li>- Evaluate the effectiveness of a company's capital structure in terms of maximizing shareholder value and maintaining financial flexibility.</li> <li>- Design a capital structure strategy for a company that aligns with its growth objectives, risk tolerance, and financial goals.</li> <li>- Exercise (5 minutes) – Discussion</li> </ul> </li> </ol> </li> </ol>	
<b>Closure</b>	<ol style="list-style-type: none"> <li>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</li> <li>2. Homework <ul style="list-style-type: none"> <li>- To go through the concept of Capital Structure and financial structure.</li> </ul> <p>Spend 5 minutes to wrap up and consolidate the learnings.</p> </li> <li>3. Suggested Readings: Book 1, Ch.15</li> </ol>	

# Model Institute of Engineering & Technology (Autonomous) Lesson Plan

Kot Bhalwal, Jammu

<b>Evaluation</b>	1. Reflective Questions (What, Why, Who?). Allow students to answer and discuss. Spend 5 minutes to evaluate student assimilation of the lesson contents
-------------------	---

<b>Lesson Plan No. 3.2</b>	<b>Course Name: Financial Management</b> <b>Title: Concept and Factors Influencing Capital Structure Decisions</b>	<b>Course No.: BCMMJ- 301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Analyze the impact of different capital structure choices on a company's cost of capital and overall financial risk.</li> <li>b. Evaluate the effectiveness of a company's capital structure in terms of maximizing shareholder value and maintaining financial flexibility.</li> <li>c. Design a capital structure strategy for a company that aligns with its growth objectives, risk tolerance, and financial goals.</li> </ul>	
<b>Teaching Aids (if any)</b>	a. Use of ICT	
<b>Teaching Development</b>	<ol style="list-style-type: none"> <li>1. <b>Introduction</b>(10minutes) <ul style="list-style-type: none"> <li>- Ask questions</li> <li>- What are the capital structure decisions?</li> <li>- What is its scope?</li> <li>- Introduce the Capital structure decisions in financial management</li> <li>- Talk about its relevance in business firm.</li> </ul> </li> <li>2. <b>Development</b>(30minutes) <p>Introduction</p> <ul style="list-style-type: none"> <li>- Define Capital Structure decisions</li> <li>- Highlight the important assumptions in Capital structure</li> <li>- Elucidate factors affecting capital structure decisions.</li> <li>- Define capital structure and its components (equity and debt).</li> <li>- Explain the concept of capital structure and how it affects a company's financial stability and performance</li> <li>- Demonstrate how to analyze a company's capital structure by calculating ratios such as debt-to-equity ratio and leverage ratios</li> </ul> </li> <li>3. <b>Exercise</b>(5minutes) Discussion</li> </ol>	
<b>Closure</b>	<ol style="list-style-type: none"> <li>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</li> <li>2. Homework <ul style="list-style-type: none"> <li>- To go through the concept of Capital structure decisions. Spend 5 minutes to wrap up and consolidate the learnings</li> </ul> </li> <li>3. Suggested Readings: Book 1, Ch.15</li> </ol>	
<b>Evaluation</b>	<ol style="list-style-type: none"> <li>1. Reflective Questions(What,Why,Who?). Allow students to answer and discuss.</li> </ol> <p>Spend 5 minutes to evaluate student assimilation of the lesson contents</p>	

<b>Lesson Plan No. 3.3</b>	<b>Course Name: Financial Management</b> <b>Title: Theories of Capital Structure- Net Income Approach</b>	<b>Course No.:</b> <b>BCMMJ- 301</b>
<b>Objectives</b>	At the end of the lesson the student shall be able to: <ul style="list-style-type: none"> <li>a. Define the Net Income Approach to capital structure.</li> <li>b. Describe the relationship between capital structure, cost of capital, and firm value according to the Net Income Approach.</li> <li>c. Use the Net Income Approach to analyze the impact of changing capital structure on the overall cost of capital</li> </ul>	
<b>Teaching Aids (if any)</b>	a. Use of ICT	
<b>Teaching Development</b>	<ol style="list-style-type: none"> <li>1. <b>Introduction</b>(10minutes) <ul style="list-style-type: none"> <li>- Ask questions</li> <li>- How capital structure decisions affect firm's business?</li> <li>- Introduce the Capital structure decisions in corporate finance.</li> <li>- Talk about its relevance in business firm.</li> </ul> </li> <li>2. <b>Development</b>(30minutes) <ol style="list-style-type: none"> <li>a) Introduction <ul style="list-style-type: none"> <li>- Define Capital Structure decisions</li> <li>- Highlight the important assumptions in Capital structure</li> <li>- Elucidate factors affecting capital structure decisions.</li> <li>- Compare the Net Income Approach with other capital structure theories to identify key differences and similarities.</li> <li>- Assess the strengths and limitations of the Net Income Approach in explaining the effect of leverage on a firm's value.</li> <li>- Design a capital structure plan for a hypothetical company using the principles of the Net Income Approach.</li> </ul> </li> </ol> </li> <li>3.Exercise(5minutes) Discussion</li> </ol>	
<b>Closure</b>	<ol style="list-style-type: none"> <li>1. Summarize the Lesson Learning Outcomes and get affirmation from students on these.</li> <li>2. Homework <ul style="list-style-type: none"> <li>- To go through the concept of Capital structure decisions. Spend 5 minutes to wrap up and consolidate the learnings</li> </ul> </li> <li>3.
