Analytics for Academia

Performance Insight 360

PROVIDING LEADERS IN ACADEMIA THE INSIGHTS THEY NEED

Performance Insight-360 is the next generation analytics platform for academia which tracks year-over-year performance of all the stakeholders across multiple parameters. Insights based on Key Performance Indicators serve as valuable inputs for strategic decisions by the leadership team. Integrated Dashboards for the institution, departments, faculty and students provide one-click information allowing group and individual-level performance to be tracked and monitored. Over 50

in-built reports provide deep-dive statistics on each individual performance parameter. The framework automatically benchmarks performance of individuals and departments internally and externally for continuous improvement. Our patent-pending offering is based on a simple adage - *"What cannot be measured, cannot be improved"*. Therefore, it is a must-have for institutions in higher education which are committed to quality and excellence.

MAJOR REPORTS

- Institution/Group Performance
- Department Performance
- Faculty Performance
- Student Performance
- NAAC & NBA Reports
- NIRF & ARIAA Reports
- Faculty and HoD Monthly Reports (with consolidated analytics)
- Stakeholder Feedback (with advanced satisfaction analysis)
- Attrition Analysis

- NIRF Module

Institutional Analytics

- Performance Index
- Inter-Departmental Relative Performance
- Departmental Rankings
- Trend Analysis
- Research Dashboard
- Automated reports to leadership team

PI-360 KEY ASPECTS

 **Cloud Based Solution**
SaaS model, hosted on AWS

 **System Configuration**
Product setup and operation-ready in one day

 **System Usability**
Intuitive, ease-of-use, low training required

 **Data Entry Effort**
3-5 minutes per month per user
